Lexington Streetscape Master Plan Wins 2009 KAPA Award for Outstanding Plan

Kinzelman Kline Gossman, along with our consultant partners Strand Associates, Brownstone Design and 2nd Globe Studios, are pleased to announce that the Lexington Streetscape Master Plan has received a Kentucky Chapter of the American Planning Association Award for Outstanding Plan.

The Downtown Streetscape Master Plan, which was unanimously adopted by Council in September of 2008, establishes strategies and guidelines for the incremental transformation of Downtown Lexington's public realm. The plan integrates "Complete Street" strategies which promote multi-modal transit alternatives, create a stronger pedestrian orientation and build a more sustainable infrastructure network.

The first phase of the \$70 million plan is scheduled to be completed by the opening of the Alltech FEI World Equestrian Games in 2010.
